

webMethods 8 Certified CAF Developer

EARN THE RECOGNITION YOU DESERVE

Are you the kind of person who doesn't stop at merely performing your daily tasks? Do you continue to expand your knowledge to be the best you can be? Then becoming a Software AG webMethods 8 Certified CAF Developer is the next essential step in your career

You can register online for the test at: www.softwareag.com/certification

This proctored examination is designed for the experienced webMethods CAF developer. It consists of 50 multiple choice questions across a range of CAF development topics. Examinees are allowed 150 minutes to complete the exam. No course completion is required to sit for this exam, but prospective examinees are strongly recommended to have completed the following course: webMethods 8 CAF UI and Portlet Development.

The Software AG Certification Program establishes a standard for knowledge and skills necessary to successfully implement and maintain mission-critical IT systems in organizations using Software AG technology. All certifications offered by Software AG attest to a high level of proficiency as a developer of IT applications based on Adabas, ARIS, Natural, and webMethods products.

KEY BENEFITS

- Industry recognition of your knowledge and proficiency
- Validation of your expertise and skills to your employer
- Ability to apply for future job opportunities
- Logo and certificate to identify you as a webMethods 8 Certified CAF Developer

PREREQUISITES AND DEPENDENCIES

The scope of the test is webMethods CAF 8.0. The test assumes a general understanding of Java, Web services and Internet technologies, as well as specialized knowledge of CAF development. The test is designed to test for skills of how to implement webMethods CAF applications in an organization.

TEST TOPICS

Individuals who successfully complete the **webMethods 8 Certified CAF Developer** test will have demonstrated knowledge and skills associated with the following subject areas:

General CAF Topics - Architecture, Environment, Setup, Standards, etc.	Page Navigation and Navigation Rules
Designer GUI - Perspectives, Views, Editors, etc.	Using Cascading Stylesheets (CSS)
Managed Beans	Web Application Development & Deployment
Content Providers	My webMethods Server Page Development
General Portlet Development - Controls, Scripts, Converters, Validators, Actions, etc.	My webMethods Server Administration
AJAX (Asynchronous Javascript and XML)	CAF APIs - JSFEL / CAF.Model API
Security	Internationalization
	CAF Events and Notifications

BEST WAY TO PREPARE FOR THE TEST

Successful completion of the webMethods 8 Certified CAF Developer certification test requires a solid knowledge in using webMethods CAF, as can be acquired through Software AG training courses and through practical experience.

While the suggested resources can assist you in preparing for the test, it is imperative that you have hands-on experience developing and/or maintaining CAF projects since this is a practice-oriented test.
