

Global Consulting Services

MODERNIZE AND OPTIMIZE YOUR NATURAL AND ADABAS APPLICATIONS TO MEET YOUR GOALS – FASTER – WITH OUR EXPERTISE!

Does your 'to-do' list look like this?

- **Improve user response time**
- **Lower hardware and network costs**
- **Upgrade to Adabas 8**
- **Train new staff on current systems**
- **Plan for application modernization**
- **Plan for an SOA**
- **Migrate to new platform**
- **Find temporary programming help**

Call on the experts to help. Software AG Global Consulting Services can help you get more done in less time by offering real-world experience, best practices and proven methodologies.

Get hands-on help and valuable expertise when you need it most! Software AG Global Consulting Services offer experienced professional resources to help you get the greatest value and performance from your IT investments.

Using Software AG Services, you can:

- Optimize data management – tune your systems for top performance and get up and running faster with new products
- Modernize applications – meet new business needs while avoiding costly 'rip and replace'
- Plan effectively – assure business continuity and optimize a Service-Oriented Architecture
- Migrate to new platforms – realize new efficiencies to the greatest extent as quickly and safely as possible
- Reduce IT backlog – augment your staff with training, mentoring and on-site programmers

Expect measurable results!

"Worth every penny" – that's how one CIO described working with Software AG. Our experts helped Florida Community College at Jacksonville migrate to a new platform to save \$1 million/year with a five-year ROI of 39.76%!

A major financial services company challenged us to cut its batch-window processing time by one hour. We did it in just days using existing systems, and the company saved \$1 million/day in interest payments.

Another customer told us the results of a performance and tuning engagement were "nothing short of phenomenal!" These engagements have reduced CPU time by 30% and improved critical path batch throughput by 10–30%.

"The Software AG team was very quick to understand the nature of our problem. They were very flexible and easy to work ... they stayed with us, working patiently and helpfully with us to get our people trained."

- Anne Collins, former director, Massachusetts Division of Professional Licensure

WHY SOFTWARE AG?

For nearly four decades, we've helped customers get there faster. On top of that, no one knows our technologies better than Software AG.

Count on our Global Consulting Services team to bring you:
