

CentraSite Certified SOA Governance Professional

EARN THE RECOGNITION YOU DESERVE

Are you the kind of person who doesn't stop at merely performing your daily tasks? Do you continue to expand your knowledge to be the best you can be? Then becoming a Software AG CentraSite Certified SOA Governance Professional is the next essential step in your career

You can register online for the test at:
www.softwareag.com/certification

The Certification Test is practice-oriented and simulates situations typical of SOA governance projects. It tests your CentraSite ActiveSOA and webMethods Mediator knowledge in all areas that are important to manage and govern your SOA environment and to achieve control and transparency across all SOA-related IT resources.

The CentraSite Certified SOA Governance Professional certification test is a web-based multiple-choice test. It contains approximately 51 questions and must be completed in 150 minutes. To pass the test and receive certification, you must score a 66% on the test. The exact numbers in effect for a test may change at short notice and will be displayed in the test.

This proctored exam is designed for the experienced CentraSite and webMethods Mediator user. The majority of the questions will test for CentraSite ActiveSOA topics, some webMethods Mediator and very few webMethods Insight (overview level only) topics. No course completion is required to sit for this exam, but prospective examinees are strongly recommended to have completed the following courses:

- SOA Governance with CentraSite ActiveSOA
- SOA Runtime Governance with webMethods Mediator

KEY BENEFITS

Benefits of achieving the CentraSite Certified SOA Governance Professional certification are

- Industry recognition of your knowledge and proficiency
- Validation of your expertise and skills to your employer
- Ability to apply for future job opportunities
- Logo and certificate to identify you as a CentraSite Certified SOA Governance Professional.

PREREQUISITES AND DEPENDENCIES

The scope of the test is CentraSite ActiveSOA and webMethods Mediator 8.0. The test assumes a general understanding of Web services and concepts of Service Oriented Architecture (SOA).

The test is designed to test for skills of how to implement SOA governance in an organization.

ABOUT SOFTWARE AG

Software AG is the global leader in Business Process Excellence. Our 40 years of innovation include the invention of the first high-performance transactional database, Adabas; the first business process analysis platform, ARIS; and the first B2B server and SOA-based integration platform, webMethods.

We offer our customers end-to-end Business Process Management (BPM) solutions delivering low Total-Cost-of-Ownership and high ease of use. Our industry-leading brands, ARIS, webMethods, Adabas, Natural, CentraSite and IDS Scheer Consulting, represent a unique portfolio encompassing: process strategy, design, integration and control; SOA-based integration and data management; process-driven SAP implementation; and strategic process consulting and services.

ABOUT IDS SCHEER

IDS Scheer is part of the Software AG Group and a leading provider of BPM software, solutions and services for corporations and public organizations worldwide. With the ARIS Platform for Process Excellence, the company offers an integrated, comprehensive solution portfolio for the strategy, design, implementation and controlling of business processes; allowing companies to continuously improve their overall business performance. Utilizing the ARIS Value Engineering (AVE) approach, IDS Scheer consultants bridge the gap between corporate strategy, business processes, IT solutions and process controlling.
