

DISCOVER, SHARE AND COLLABORATE WITH A GLOBAL COMMUNITY

ADABAS & NATURAL ALFABET APAMA ARIS TERRACOTTA WEBMETHODS

Looking for helpful tips and tools to support your next project? Want to stay on top of the latest product news? Need a bit of inspiration?

Collaborate with your peers—developers, consultants, system integrators and business analysts from around the world—by joining the Software AG TECHcommunity.

As a member of the Software AG TECHcommunity, you reap the rewards that come from being part of a dynamic online community. Gain access to practical tips, comprehensive resources and the latest news. Contribute to and draw from a wealth of best practices while collaborating with peers from around the world. Select individuals to be part of your professional network to share knowledge, ask questions and solve problems.

Make the most of your Software AG investment—and tap into a community that will help you accelerate development initiatives and realize your goals.

Key benefits

- Increase productivity—build skills, accelerate projects and find resources quickly
- Build a professional network—tap the wisdom of many, brainstorm solutions, inspire and support
- Showcase your skills—create your own brand, add to your resume, share insights and demonstrate expertise

Features

DISCOVER NEW ASSETS

Product demonstrations

Get acquainted with new product features by watching short videos on how to best work with new capabilities.

Downloads

Find a range of free community editions, plug-ins and much more, all designed to help you get even more from your Software AG investment.

Code samples

Search the code samples library online to accelerate development initiatives and see how they are used in the Wiki tutorials. Easily browse and download code from our GitHub® account.

Newsletters

Receive TECHniques—Software AG's technical newsletter and blog full of insightful articles, tips and tricks. If you have a great subject to write about, why not contribute an article yourself?

“Software AG’s TECHcommunity is a one-stop shop to connect to all Software AG developer assets, channels and community members. It offers many useful tools that enable you to interact with others and find answers that you can’t find anywhere else. I encourage everyone to use the TECHcommunity and contribute your insights to build on this intuitive and dynamic environment.”

— **Brian Johnson** | Eaton Corporation,
Head of the Presidents Committee,
Americas User Group

Community news

Keep up-to-date on new product releases, upgrades, language packs and announcements from the Software AG product teams. Learn what’s new in the TECHcommunity and what new content and ideas have been posted by your peers.

Choose how you want to stay up to date by following the TECHnews quarterly email, RSS feed or Twitter® handle [@TECHcom_SAG](#).

Events

Check out details for the latest Software AG or user group events and upcoming webinars.

SHARE INSIGHTS

Discussion forums

Access hundreds of thousands of posts across more than 200 forums from more than 70,000 members. Discussion forums provide a rich knowledgebase where you can access helpful information from a browser or your mobile device on a variety of product-related topics.

Expert moderation

Chat with others about technical issues or request help on a specific problem. Because each discussion forum is moderated by knowledgeable product experts, you get direct access to those in the know.

Digests & social sharing

Stay up-to-date on any new topics or perhaps a reply to your original post with digest options for daily, weekly or monthly summaries. Share your posts with friends and colleagues with social networking features.

COLLABORATE

Custom wall

Establish your own presence in the community with your custom profile and wall. In this free-form space, you can share your insights, ask questions, post links and upload resources for your friends to see and comment on.

Network globally

Within the Software AG TECHcommunity, you can build your own professional network by inviting community members to connect. You can search the worldwide community, establish professional contacts, chat and exchange ideas and resources.

Wiki articles & tutorials

Collaboratively create and share articles and tutorials.

Open source

Visit Software AG’s GitHub account to access our public repositories. Fork and create pull requests, or post an issue to request new features or report bugs. <https://github.com/SoftwareAG>

Current VIP Pass and Empower members may join the TECHcommunity by simply updating areas of interest in their profile.

ABOUT SOFTWARE AG

Software AG (Frankfurt TecDAX: SOW) helps companies with their digital transformation. With Software AG’s Digital Business Platform, companies can better interact with their customers and bring them on new ‘digital’ journeys, promote unique value propositions, and create new business opportunities. In the Internet of Things (IoT) market, Software AG enables enterprises to integrate, connect and manage IoT components as well as analyze data and predict future events based on Artificial Intelligence (AI). The Digital Business Platform is built on decades of uncompromising software development, IT experience and technological leadership. Software AG has more than 4,500 employees, is active in 70 countries and had revenues of €872 million in 2016. To learn more, visit www.softwareag.com.
